

(THE BLUE SPIDER BOX) "S" Series GFCI Protected

CEP's "S" Series Portable Power Distribution Centers provide the user with the highest level of electrical safety. These power distribution centers are protected by a GFCI module giving the user open neutral and reverse phasing protection. They are 3R raintight and U.L. Listed for outdoor use and designed to stand up to the toughest of jobsite conditions. Each unit has been carefully assembled to provide the ultimate in electrical safety as well as meeting current OSHA standards.

- GFCI's provide **open neutral** and **reverse phasing** protection
- 1 - 50 AMP 125/250 Volt feed through receptacle
- 1 - 30 Amp 250 Volt non-GFCI receptacle
- 6 - 20 Amp 125 Volt GFCI individually protected receptacles

Cat. No.	Rating	Power Inlet	Power Outlet	Receptacles		GFI	Overload Protected	Weight
